

Industrial Frame Mixer and Agitator

Industrial Frame Mixer and Agitator is suitable for high-viscosity materials or materials easy to stick on the wall . Unique technology, good mixing result, high efficiency.

Features

- The mixer is hydraulic lift, with hydraulic station and built-in hydraulic cylinder, need less than 15 liter oil only, and will not leak oil to dirty the factory.
- The symmetrical gate blade rotates slowly along the inner surface of the tank to scrap off the material both on the inside wall and bottom. Middle paddle mixer with angle to make the material up side and down,
- With clamp to fix the mixing tank during working.

Professional technical supports & Processing Machines

Our engineers are around 20years rich experience in this area, professional skills and stable processing.

We have lathes, grinder, drilling machine, boring machine, polishing machine, milling machine...etc.

Maintenance & Services

1. We provide you operation manual in Chinese or English;
2. We offer you Videos for equipment installation and maintenance in both English and Chinese;
3. After delivery, our professional engineer will offer on-site guidance debugging free of charge, according to different characteristic of materials, to set up the operational parameters of the mill and ensure optimal grinding quality & equipment running status;
4. After the warranty period, we provide maintenance and maintenance service, only charge the cost;
5. Meanwhile, our skillful grinding experts can offer you free professional technical consulting and service.
